Meet Live With Employers from Anywhere in the World

Finding a job after serving in the military can often be quite challenging, and knowing where to find the jobs can often be one of the biggest hurdles. We can help you connect live with employers even before you leave the service by utilizing our virtual career fairs. Whether you are deployed to Afghanistan, or a veteran who has been out of the service for 30 years, you will benefit from registering and attending.

We allow you to meet and interact in real time with military friendly employers from anywhere in the world provided you have a computer and internet access. This is an outstanding way to look for opportunities across the country, but without having to be in each location.
